We are stronger together.

WE ARE CILT

Celebrating 100 years supporting transport
and logistics professionals

Introduction

- In our centenary year we look back but importantly we look forward
- The world is evolving rapidly & CILT needs to adapt to reflect this
- CILT International & CILT (UK) will be coming together
- We are creating an Institute that is ready for the future

A 2019 view of the Institute globally

- 34,000 Members in 35 countries
- A profession accounting for 12% of GDP globally
- The Professional Institute for everyone involved in the movement of goods and people
- Education & personal development remains a core philosophy

Coming Together in our Centenary Year

- Creating a Global Institute for a Global Profession
- Delivering enhanced value to our members
- Combining resources to allow investment in education & membership services globally
- Our centenary year is the perfect opportunity to do this

CILT International & CILT (UK)

We are stronger together

- This is a joining up supported by both Presidents
- Both CILT Boards have agreed in principle – but there is still much to do
- No change to country relationships & delegation agreements
- Coming together is the start of a bright future & the foundation for CILT for the next 100 years

CILT International & CILT (UK)

Why join up?

- We are creating the leading Global Institute for Transport & Logistics Professionals
- We are ensuring that there is a sound platform for future growth
- We are reflecting changing dynamics in our membership needs
- We will retain all that is good presently & will share best practice
- We will be clear who we are – **One Brand One Identity**
