

Purpose & Role

- To act as a reference group for the two Boards of CILT & CILT (UK) for the period of the join up discussions and the creation of plans.
- The role is to act as a consultation group for the planning & execution of the join up of CILT and CILT (UK).
- The group will be given specific topics or sections of the plan to consider and provide further input. The input will be requested in detail for each topic brought to the group. The role will be to provide a global or regional view on the topics or changes proposed before final decisions are made.
- Individuals may be approached on specific subjects rather than the whole group
- The group or individuals are encouraged to bring any specific questions or issues they become aware of to the Boards & executive rather than wait to be consulted
- The group has no decision making role and acts as a reference group only.

When?

During the planning and implementation period from July 2019 until March 2020.

How?

Through conference calls as a group or individual calls to individual members where a specific feedback is required. This can be with the executive – Keith & Kevin – or with the two Boards.
